## Suffolk Ewe Lambs

### Scenario

Rank these ewes in the order you would select them as replacements for a purebred Suffolk flock. This operation is competitive in the show ring, but their primary income is generated from the sale of functional rams to commercial operations in the western U.S. The commercial ram buyers feed the majority of their lambs to approximately 140 pounds and market locally on a cash basis. A secondary income stream for this Suffolk breeder is the feeding out and sale of non-replacement lambs as market lambs at local markets.

<b>Ewe No.</b>	<b>Birth Date</b>	<b>Born/Raised</b>	<b>Adjusted 60 Day Weight</b>	<b>Codon 171</b>
1	1/19/12	Tw/S	58	RR
2	1/21/12	S/S	56	QR
3	1/30/12	Tw/Tw	60	RR
4	3/11/12	Tw/S	64	QR
