## Hopper's 4-H Club News

*Derek A. Cosner, Reporter*

The Hoppers met Saturday, March 15, 2025, at the Garrett College Career Technology and Training Center in Accident for the Rabbit Workshop. There were 19 youth participants, 13 volunteers/presenters, 11 other guests.

Participants learned about beginner and advanced showmanship, plants that are good/toxic for rabbits, rabbit health and diseases, and built a rabbit cage. There was a silent auction and raffle of items and a food table available to benefit the club. There was also a guessing game for participants to try to figure out the amount of candy or popcorn in jars. Roxy Kilmer read her book *Be You* to everyone at the end before certificates were handed out.

The club would like to thank Garrett College for hosting this event and everyone who helped in some way. We also want to thank the presenters who took their time to educate us on these important topics and those who helped us build cages.

The next meeting will be 4-H Achievement Night at the Ag Hall, Sunday, April 6, 2025, at 2pm.
